

The nomad spirit

The nomad spirit

We are all nomads at heart, driven by the desire to travel, to enjoy new experiences, discover new places or the sense of freedom provided by an evening on the beach or the silence of the mountains.

And you are not alone, because at SNOVIT we feel exactly the same, which is why we have spent more than 35 years providing high quality accessories enabling you to enjoy your nomad spirit, including our new roof bars/racks, which are easy to mount and perfect for transporting everything you need.

CITY

The perfect range for nomads who occasionally use roof racks and are looking for a durable, quality product at an affordable price.

CITY top

Measurements (cm.)	110	120	130	140
Ref.	312071	312072	312073	312074

Classic luggage rack for vehicles with a standard roof, manufactured with galvanized steel tubes and a highly resistant polymer covering.

Easy to mount thanks to the new compression tensor bar system.

Includes feet manufactured in highly UV resistant polyamide with a tilting system* which perfectly adapts to most vehicles.

Durable and affordable system specially recommended for shorter journeys and occasional loads.

Maximum load	80 Kgs.
Cross section	30x20 mm.
Bar thickness	1,5 mm.
Adaptor (depending on the vehicle)	TOP (Ref. 310001 a 310399)
Lock	Optional (Ref. 390003)
Use	Normal roofs

* Tilting feet for perfect mounting.

CITY point

Measurements (cm.)	110	120	130	140
Ref.	311011	311012	311013	311014

Classic luggage rack for vehicles with a fix point system, manufactured with galvanized steel tubes and a highly resistant polymer covering.

Includes feet manufactured from 2mm thick steel and finished with polyester paint and highly UV resistant polyamide covering.

Durable and affordable system specially recommended for shorter journeys and occasional loads.

Maximum load	50 Kgs.
Cross section	30x20 mm.
Bar thickness	1,5 mm.
Adaptor (depending on the vehicle)	POINT (Ref. 310401 a 310799)
Lock	Optional (Ref. 390001)
Use	Roofs with anchorage points

CITY rail

 **snovit**
accessories for people

Measurements (cm.)	110	120
Ref.	313001	313002

Classic luggage rack for vehicles with a railing system, manufactured with galvanized steel tubes and a hard-wearing polymer covering.

Durable and affordable system specially recommended for shorter journeys and occasional loads.

Maximum load	50 Kgs.
Cross section	30x20 mm.
Bar thickness	1,5 mm.
Adaptor	Does not require adaptor
Lock	Not available
Use	Roofs with railing

CITY flush

Measurements (cm.)	110	130
Ref.	315011	315012

Classic luggage rack for vehicles with integrated railing (Flush Rail), manufactured with 1.5mm thick galvanized steel rounded tubes and a high resistance polymer covering.

Includes feet manufactured from highly UV resistant polyamide with a fixation system which does not require an adaptor.

Maximum load	50 Kgs.
Cross section	40x20 mm.
Bar thickness	1,5 mm.
Adaptor	Does not require adaptor
Lock	Included
Use	Roofs with integrated railing

CITY cargo

Measurements (cm.) | 110 | 120 | 130 |

Complete special KIT
Bar + Adaptor

Long lasting and affordable system with square cross-section galvanized steel bars with a high resistance PVC covering to guarantee durability.

Includes feet manufactured from 2mm thick steel and finished with polyester paint and highly UV resistant polyamide protective covering plus adaptors.

Recommended for small vans thanks to its combination of high quality at an affordable price.

CITROEN: C15 / Berlingo I / Berlingo II / Nemo / Jumpy I

DACIA: Dokker / Dokker Van

FIAT: Doblo I / Fiorino III / Scudo I

PEUGEOT: Bipper / Expert I / Partner I / Partner II

RENAULT: Express / Kangoo I / Kangoo II

VOLKSWAGEN: Caddy III / Caddy IV / Caddy Maxi IV

Maximum load	50 Kgs.
Cross section	30x20 mm.
Bar thickness	1,5 mm.
Adaptor	Included (specially designed for vans)
Lock	Optional (Ref. 390001)
Use	Roofs with anchorage points

TRAVELER

The perfect range for the most demanding nomads.
Premium quality bars for guaranteed resistance and durability.

TRAVELER top

Measurements (cm.)	110	120	130	140
Ref.	312081	312082	312083	312084

Luggage racks for vehicles with a standard roof, with an aerodynamic profile manufactured from anodized aluminium which guarantee high resistance and durability.

Easy to mount thanks to the new integrated tension bar system.

Includes feet manufactured from highly UV resistant polyamide with a tilting system* to adapt perfectly to the specific vehicle.

Equipped with an upper groove allowing the insertion of attachment accessories.

Premium quality racks specially recommended for intensive use.

Maximum load	80 Kgs.
Cross section	55x30 mm.
Bar thickness	1,5 mm.
Adaptor (depending on the vehicle)	TOP (Ref. 310001 a 310399)
Lock	Included
Use	Standard roofs

* Tilting feet for perfect mounting.

TRAVELER point

Measurements (cm.)	110	120	130
Ref.	312021	312022	312023

Classic luggage racks for vehicles with a fix point system, with an anodized aluminium aerodynamic profile which guarantees high resistance and durability.

Includes feet manufactured in high UV resistance polyamide

Equipped with an upper groove allowing the insertion of attachment accessories.

Premium quality racks specially recommended for intensive use.

Maximum load	80 Kgs.
Cross section	55x30 mm.
Bar thickness	1,5 mm.
Adaptor (Depending on the vehicle)	POINT (Ref. 310401 a 310799)
Lock	Included
Use	Roofs with anchorage points

TRAVELER rail

Measurements (cm.)	110	130
Ref.	313081	313083

Luggage racks for vehicles with railing, manufactured with an anodized aluminium aerodynamic profile which guarantee high resistance and durability.

Includes feet manufactured from highly UV resistant polyamide with an attachment system which does not require an adaptor.

Equipped with an upper groove allowing the insertion of attachment accessories.

Premium quality racks specially recommended for intensive use.

Maximum load	75 Kgs.
Cross section	55x30 mm.
Bar thickness	1,5 mm.
Adaptor	Does not require adaptor
Lock	Included
Use	Roofs with railing

TRAVELER flush

Measurements (cm.)	110	130
Ref.	315021	315022

Luggage rack for vehicles with integrated railing (Flush rail), with an aerodynamic profile manufactured from 1.5mm thick anodized aluminium which guarantees resistance and durability.

Includes feet manufactured from highly UV resistant polyamide with an attachment system which does not require an adaptor.

Rack with an upper groove allowing the insertion of attachment accessories.

Premium quality racks specially recommended for intensive use.

Maximum load	80 Kgs.
Cross section	60x30 mm.
Bar thickness	1,5 mm.
Adaptor	Does not require adaptor
Lock	Included
Use	Roofs with integrated railing

TRAVELER cargo

Measurements (cm.) | 110 | 120 | 130 |

Complete special KIT
Bar + Adaptor

1,5 mm thick anodized aluminium rack with a reinforced structure to guarantee maximum resistance and durability.

Equipped with one lengthwise grooves to allow the insertion of attachment accessories to facilitate the transport of all types of load.

High quality long-lasting racks specially recommended for intensive.
